EDUCATION

August 2020 – May 2024
Florida State University, FL
Major: Bachelor of Science,
Information Technology
Minor: Computer Science

RELEVANT SKILLS

Operating Systems: Microsoft Windows, OS X, Linux
Tools: Microsoft VS Code, Word, PowerPoint, Outlook, and Excel
Programming Languages: Java, HTML, JavaScript, CSS, SQL, C++, PHP, React.js
Skills: Software and Hardware Troubleshooting, Collaborative work, Front-End Development

ORGANIZATIONS

April 2023 - Present
Seminole Innovators: Director of Public Relations for the Seminole Innovators program that provides students from all majors with workshops and tools to learn more about innovation and technology

CAREER OBJECTIVE

Seeking opportunities in the IT industry to apply my technical skills and gain practical experience in a professional environment. I have a solid foundation in web development, database management, and computer troubleshooting. I am a fast learner, a team player, and eager to contribute to projects that make an impact. My goal is to gain hands-on experience and develop my skills further to become a successful IT professional.

PROFESSIONAL EXPERIENCE

May 2023–Present
Front End Developer
Arcvale, Tallahassee, FL

- Implement front-end functionality using Svelte, ensuring code modularity and reusability.
- Create visually appealing and user-friendly interfaces for web applications using HTML, CSS, and JavaScript.
- Collaborate with cross-functional teams to understand project requirements and contribute to UI/UX discussions.
- Work closely with backend developers to integrate front-end components with server-side logic.

October 2022– May 2023
Technician
College of Communication and Information Help Desk, Tallahassee, FL

- Responded to end-user support requests via phone, email, and in-person, resolving technical issues related to hardware, software, network connectivity, and printer problems
- Utilized remote access tools to provide remote support to offsite users
- Configured and deployed new hardware and software for end-users
- Maintained accurate documentation of support requests and resolutions in the help desk ticketing system

VOLUNTEERING AND PROJECTS

March 2023–Present
Full Stack Developer Volunteer
Florida State University Innovation Hub, Tallahassee, FL
GitHub Link: <https://github.com/FSUInnovationHub/CreatorConnect>

- Develop and maintain responsive web applications using HTML, CSS, and JavaScript on the front-end.
- Implement front-end frameworks such as React.js for building interactive user interfaces.
- Utilize back-end technologies such as Python to build server-side logic.
- Utilize version control systems (e.g., GitHub) to manage codebase and facilitate collaboration.
